<b>Exposure Info:</b> First Place Mall to the north, with CMU Wall Funland to the South, 20' 2nd street in between.
<b>Hazmat:</b> 500 Gallon and 200 Gallon Propane tanks on the East Side.

--

**Building Access:** Three entrances, one set of double doors on Pacific Avenue. Two Access points from the rear of the building, one double door leading to the north half, a single door leading to the South Half.

**Access Problems:** Shouldn't be any real problem with access, other than 2nd street is narrow.

**Ventilation Problems:** This is actually two buildings, tied together in the front 1/2. Venting one ridgeline may not affect the other building.

**Pre-Fire Plan Notes:**

**Fire Protection Systems:** None.

Bolstad & Pacific —  
SE of intersection  
1150 gpm

Bolstad & Oregon —  
SE of intersection  
1140 gpm

3rd South &
