

Safe Haven Project

RFP Addendum No. 3 (final addendum)

September 2, 2015

I. Proposal Submittal Date

The date for proposal submittal has remains **Friday, September 11 at 2 PM.**

II. Questions on RFP

The City is no longer accepting questions regarding the RFP or the project (including those below). Please review all three addenda to see the questions posed to date and the City's responses.

II. Question on the RFP and Response

1. Regarding public outreach, does City intend to have the consultant take full charge of organizing and execution of public meetings (manage all coordination, set-up, and run all meetings with limited management from city), or does the City intend for the consultant to have a more limited support role (attend, give technical presentation, and provide technical support)?

The Consultant will take the lead on organizing and executing public meetings.

2. Is the city interested in a proposal which would improve upon the existing design in terms of shape and configuration or is the RFP requesting a proposal for taking the design concept as shown in Addendum 1 and developing to 30%, 60%, 90% and final without any modifications?

At this time, assume the city will move ahead with the single concept shown in Addendum 1.

3. Is it possible to find out who will be on the selection committee? If not the actual names, at least the roles/organizations they will represent?

The City prefers not to disclose that information.

III. Additional RFP Material

1. The current RFP recipients and their contact information are attached to this Addendum.

City of Long Beach, Washington

PLANHOLDERS LIST

Safe Haven Tsunami Vertical Evacuation Project

As of: September 2, 2015

Addenda: 3 on 9/2/15

RFP submittal deadline: **Friday, September 11, 2 PM**
