Impounds

Should you lose your pet while in the area, be sure to let us know! You can call us (360-642-1180), fax us (360-642-4435) or come to the Shelter (330 NE Second St in Long Beach, WA). Consider **licensing** your pet through us to ensure we can reconnect you should Fido or Fluffy be brought to us when lost.

How long we hold pets is based on where they were found. If your pet was found within the city limits of Long Beach or Ilwaco, the hold time is 3 days. Elsewhere in Pacific County, it can be up to 14 days. At the end of the hold period, the animal becomes the property of SPCHS and is put up for adoption.

When a pet comes to us as stray, we scan for a microchip and ask around to see if anyone recognizes the pet. Depending upon where the pet was found, we may post flyers indicating s/he is with us. We also post the animal to our page on petfinder.com.

Because we have costs associated with caring for found pets, we charge an impound fee. This fee must be paid, along with any veterinary or medical costs, medications, and spay/neuter (if your pet remains with us after the hold time expires, we will have him/her altered), prior to our releasing the pet to you.

As heartbreaking as it can be, we will not re-visit an adoption should you locate your pet with us *after* it has been adopted by someone else. There is no ideal solution to such problems and so we've had to make a firm policy and stick to it. **Please, let us know as soon as your pet goes missing to avoid this situation!**

impound

Owners are required to pay impound fees, plus any veterinary and/or medical costs, medication administration fees, and spay/neuter, if performed prior to the pet being released to them.

Animals impounded longer than the time periods required by the laws governing the location the pet was found (typically 3-14 days) become the property of SPCHS.

Under no circumstances will SPCHS re-visit an adoption due to a former owner attempting to claim the pet after it has been re-homed under these conditions.

COMPLETE STREETS

A. Purpose

The purpose of this chapter is to promote pedestrian, bicycle, and public transportation travel to reduce negative environmental impacts, promote healthy living, advance the well-being of travelers, support the goal of compact development, and meet the needs of the diverse populations that comprise our community. It is intended to help achieve the goals and objectives of the City of Long Beach (City) as a community in which all residents and visitors, regardless of their age, ability, or financial resources, can safely and efficiently use the public right-of-way to meet their transportation needs regardless of their preferred mode of travel.

The City will plan for, design, construct, operate, and maintain an appropriate and integrated transportation system that plans for the needs of all users in new roadway construction, retrofit, or reconstruction projects. The system's design will be consistent with sound engineering principles and supportive of local neighborhoods, recognizing that transportation needs vary and must be balanced in a flexible, safe, and cost-effective manner.

B. Complete Streets Definition

A "complete street" is a road that is designed to provide safe access to all users, including bicyclists, motorists, public transit vehicles and users, school buses, emergency responders, wheelchair users, and pedestrians of all ages and abilities. The complete streets concept focuses not just on individual roads but on changing the decision-making process so that all users are routinely considered during the planning, designing, building and operating of all roadways. Transportation facilities that support the concept of complete streets include, but are not limited to, pavement markings and signs; street and sidewalk lighting; sidewalk and pedestrian safety improvements; Americans with Disabilities Act and Title VI compliance; transit accommodations; bicycle accommodations including appropriate signage and markings, and as appropriate streetscapes that appeal to and promote pedestrian use.

C. Projects

Those involved in the planning and design of projects within the public right-of-way will consider all users and modes of travel from the start of planning and design work. Transportation improvements shall be viewed as opportunities to create safer, more accessible streets for all users. This shall apply to new construction, reconstruction, and rehabilitation.

D. Exceptions

Exceptions to this policy may be determined by the City Administrator under the circumstances listed below:

- A. Street projects may exclude those elements of this policy that would require the accommodation of street uses prohibited by law;
- B. Ordinary and routine maintenance of the transportation network designed to keep assets in serviceable condition that does not change the roadway geometry or operations, such as mowing, snowplowing, sweeping, spot repair, joint or crack sealing, or pothole filling do not require that elements of this policy be applied beyond the scope of that maintenance activity;
- C. Repairs made pursuant to pavement opening and restoration allowed by approval of the City Administrator or City Engineer;
- D. Ordinary maintenance paving projects should include evaluation of the condition of existing facilities supporting alternate transportation modes as well as modifying existing pavement markings and signage that supports such alternative modes as appropriate.
- E. Street reconstruction projects and maintenance paving projects which involve widening pavement may exclude elements of this policy when the accommodation of a specific use is expected to:
 - 1. Require more space than is physically available, or
 - 2. Be located where both current and future need is proven absent, or
 - 3. Incur cost that would be disproportionate to the current or probable future need, or
 - 4. Have adverse impacts on environmental resources such as streams, wetlands floodplains, steep slopes or other critical areas; or
 - 5. Have significant adverse impacts on neighboring land uses or on historic structures or sites above and beyond the impacts of currently existing infrastructure, including impacts from right-of-way acquisition; or
 - 6. Be unnecessary or inappropriate because it would be contrary to public safety.
 - 7. Street projects may exclude the development of sidewalks in areas falling outside those identified as appropriate for sidewalks based on an adopted sidewalk policy.

E. Intergovernmental Consideration

K) Engaging in Business

1) The term "engaging in business" means commencing, conducting, or continuing in business, and also the exercise of corporate or franchise powers, as well as liquidating a business when the liquidators thereof hold themselves out to the public as conducting such business.

The activities listed in this section are illustrative only and are not intended to narrow the definition of "engaging in business" in subsection (1). If an activity is not listed, whether it constitutes engaging in business in the City shall be determined by considering all the facts and circumstances and applicable law.

(d) Renting tangible or intangible property as a customer when the property is not used in the City.

The Honorable Jerry Phillips
Mayor of Long Beach
PO Box 310
Long Beach, WA 98631

Dear Mayor Phillips:

Congratulations! The Long Beach Wastewater Treatment Plant is receiving the 2017 "Wastewater Treatment Plant Outstanding Performance" award. Of approximately 300 wastewater treatment plants statewide, yours is one of 111 that achieved full compliance with its National Pollutant Discharge Elimination System (NPDES) permit in 2017.

My staff evaluated wastewater treatment plants in Washington for compliance with the effluent limits, monitoring and reporting requirements, spill prevention planning, pretreatment, and overall operational demands of the NPDES permit.

It takes diligent operators and a strong management team, working effectively together, to achieve this high level of compliance. It is not easy to operate a wastewater treatment plant 24 hours a day, 365 days a year, without violations. Ecology appreciates the extraordinary level of effort your plant operators demonstrated throughout 2017. Talented and proficient operators are critical to successful plant operations and protecting the health of Washington's waters. Your excellent record is a credit to the dedicated operators who are responsible for running the award-winning Long Beach Wastewater Treatment Plant.

We will announce the 2017 award recipients, including the Long Beach Wastewater Treatment Plant, in the coming weeks.

Please call Pat Bailey at 360-407-6291 if you have any questions or comments about your award.

Thank you for the excellent service your operators provide to your community and the waters of Washington.

Heather R. Bartlett

LONG BEACH PENINSULA, WASHINGTON

Long Beach welcomes visitors with fun shops, great seafood, a boardwalk, comfortable lodging, world-class attractions, and an expansive beach. Twenty-eight miles of pristine ocean beaches to stroll and breathe in the fresh Pacific Ocean air! Delve into the Lewis and Clark history at an interpretive center and along the Discovery Trail. Take a guided horseback ride, bike, or walk amongst the dunes. Year-round festivals, events and just plain fun!

CROWN JEWELS

The World Kite Museum is the only American museum in the Western Hemisphere dedicated exclusively to the thrill, joy, art, science and world history of kites. With outstanding exhibits, the museum has joined the American Kite Association (AKA) for even more expansive archives. Perched atop a cliff overlooking the mouth of the Columbia River, the Lewis & Clark Interpretive Center tells the story of the Corps of Discovery at the end of their journey as well as those of the two lighthouses that protect the waters known as the "Graveyard of the Pacific". The Columbia Pacific Heritage Museum, Cranberry Museum, NW Carriage Museum, and State and National Parks all delight visitors year-round. Seasonally, the Willapa Bay Oyster House Interpretive Center and the Knappton Cove Pesthouse, Columbia River's Ellis Island, a 100-year-old quarantine station, and the Pacific County Seat and Courthouse all offer intriguing tales.

CULINARY EXPERIENCES

When sea air stimulates the appetite, Long Beach satisfies with a mouthwatering mélange of restaurants. From casual bistros to distinctive dining rooms, they share a devotion to the abundance of fresh, local ingredients thriving in this fertile region. From one end of the Peninsula to the other, food-savvy travelers find this is a destination awash in just-caught seafood like Dungeness crab, tuna, halibut, razor clams and butter clams.
